EDUCATION

LNCT University   **Bhopal, Madhya Pradesh**
B. Tech in Computer Science   *2021- 2025*
CGPA: 7.46

PROFILE SUMMARY

- **Targeting Entry-Level Developer Roles**: Seeking opportunities in dynamic and collaborative environments to apply and grow my skills.
- **Java and Android Expertise**: Proficient in Java, Android development, JDBC, and Data Structures & Algorithms (DSA).
- **UI Development**: Skilled in building responsive and user-friendly interfaces.
- Committed to **staying updated** with the **latest industry** trends and technologies, continuously enhancing skills to provide innovative solutions

SKILLS

Programming: Java, JDBC, Android App development, DSA, Oops, MySQL
Tools: IntelliJ, Git, Android Studio, Visual Studio Code

Work Experience

App Developer   **June 2023- December 2023**
Bharat Intern

- Proficient in Java with a strong understanding of Android App Development principles.
- Demonstrated ability to create responsive and visually appealing Applications.

PROJECTS

Tutor Hunt (GitHub)   **June 2024- Current**
Tools: Java, xml, Firebase, MySQL.
The app connects students with qualified, affordable home tutors. It encourages feedback after sessions, helping students make informed decisions and improving teaching quality and credibility.
Responsibilities:

- Developed the front-end using **XML** creating a responsive and intuitive user interface.
- Managed the backend entirely with **JAVA**, handling data storage, retrieval, and user management efficiently.

News Droid (GitHub)   **June 2024 – July 2024**
Tools: Java, XML, Android Studio
The News App uses APIs for real-time updates. It provides seamless, user-friendly access to the latest news. Managed the project lifecycle, focusing on performance, scalability, and user satisfaction.
Responsibilities:

- Developed a Real-Time News App using Java, XML, and Android Studio, integrating APIs for real-time updates.
- API Integration: Implemented APIs to fetch and display the latest news efficiently.
- Performance Optimization: Enhanced app performance to ensure smooth and responsive user interactions.

ACADEMIC ACHEIVEMENTS

- Earned a certification in Android App Development from Udemy.
- Earned a certification in Java for Android from Coursera.
- Earned a certification in Programming using Java from Infosys.
- Earned 5 stars in Java on HackerRank.
- Achieved a 1600+ contest rating on LeetCode.
- Achieved a 1400+ contest rating on CodeChef.
